A few weeks since, when the news of the success of the administration party in Pennsylvania and Georgis reached this city, so elated with joy were the anti-Americans, that the city rang with the yells and shouts of the enthusiastic Anties. The streets, lounging rooms and groggeries were thronged with the excited crowd during the night, and succeeding day; but vesterday, and last night, when the news from New York, Massachussets, and Maryland, gave cheering indications of the success of the Americans, quiet and order prevailed. SPONGING ON THE PRINTER.-Here is a little article we think something of framing. to hang conspiciously over the editor's table:-"The public have a funny notion about printers. They think it costs nothing to puff, advertise, &c. And thus one and another will sponge an extra paper, a puff, or some benevolent advertisement. They forget that this business makes them known They forget that it is the printers ink that makes nine-tenths of their immense formulations and the state of the country of the country country. They forget that it is the printers ink that makes nine-tenths of their immense formulations of the country country of the country country. The state of the country country is the state of the country of the count or some benevolent advertisement. They tunes. They forget that it takes money to pay compositors-to buy ink, type and paper-and lastly, they forget even to thank you for working for nothing, by gratuitously puffing their business."
